

A Legacy of Care

As Barlow Respiratory Hospital reflects on this milestone, we stand in humble gratitude for all who have come before us, and all who have driven the important work of the hospital forward. We are grateful for the community we call home. We are grateful for the staff, for the

physicians, nurses, clinical professionals, support and administrative staff – whose sacrifice and skill have made us an award-winning hospital with a legacy of excellence. We are grateful for the patients and families who trust us with their care. We are grateful for the referring

physicians and hospitals who have trusted us to provide specialized quality care to patients. We are grateful for the friends, foundations and donors who have supported the hospital with financial contributions that have made our work possible. Thank You

1902 - 1911

1902 - Barlow Sanatorium founded

Barlow Sanatorium first buildings constructed in 1902

1902 - Infirmary and cafeteria buildings constructed. Barlow kitchen/cafeteria is still in use after 120 years

1903 - Barlow Sanatorium admitted first patient

1909 - Awarded gold medal for infirmary and cottage construction by Alaska-Ukon-Pacific Exposition

1910 - Williams Hall constructed for patient recreation, stage plays, writing and patient library

Williams Hall constructed 1910

1912 - 1921

1919 - American Red Cross donates funds to construct cottages for veterans returning from WWI

American Red Cross Cottages constructed 1919

1919 - Birge Hall nursing dormitory constructed

1922 - 1931

1922 - Library constructed for medical texts

Library constructed 1922

1925 - Infirmary, built in 1902, destroyed by fire

ReBuilding Barlow after infirmary burned down, construction of current hospital, 1927

1927 - New, current, hospital building constructed

1932 - 1941

1938 - New official affiliation forged with University of Southern California Medical School

1943 - Barlow Guild founded for fundraising activities

1942 - 1951

1944 - New and effective treatment for tuberculosis developed

1952 - 1961

1953 - Celebration of 50th Anniversary

1960 - New drugs developed to effectively treat and manage tuberculosis

1960 - New name, new focus: Barlow Sanatorium transforms into Barlow Respiratory Hospital, to treat patients with chronic respiratory diseases

Barlow Respiratory Hospital

1962 - 1971

- 1970** - New patient population: Barlow begins admitting patients for weaning from prolonged mechanical ventilation as modern respiratory care evolves to incorporate new technology and equipment

Patient on Ventilator

1972 - 1981

- 1974** - New building constructed adjacent to hospital
1975 - Barlow Guild House opens as gift shop under Margaret Freed's leadership

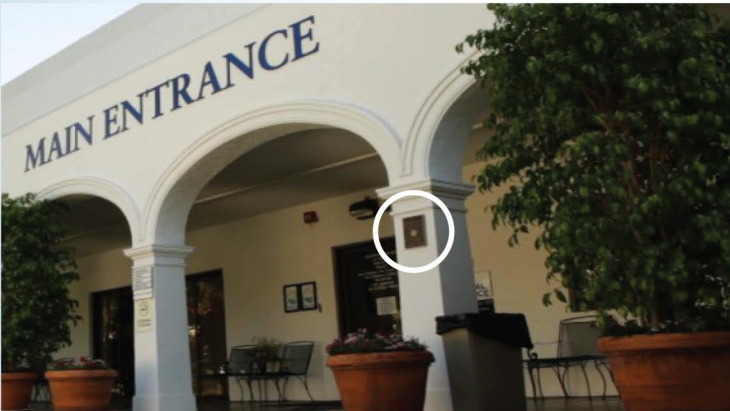

Guild House constructed 1920, repurposed as gift shop 1975

- 1976** - New pulmonary rehabilitation focus with programs related to modern-day respiratory disease
1981 - New building constructed adjacent to hospital

1982 - 1991

- 1988** - Bosworth Hall provided to Chris Brownlie Hospice to serve HIV/AIDS crisis
1990 - Barlow hospital site in Los Angeles named Los Angeles Historic-Cultural Monument (HCM #504)

Barlow Respiratory Hospital designated Historic Cultural site 1990

- 1990** - First published research on weaning from prolonged mechanical ventilation
1991 - Barlow Respiratory Research Center established

1992 - 2001

- 1994** - Barlow Foundation incorporated
1994 - First published peer-reviewed journal article presenting Barlow weaning outcomes
1997 - **NEW LOCATION** Barlow Whittier at PIH Health Hospital opens to serve San Gabriel Valley
1998 - Therapist-Implemented Patient -Specific "TIPS®" Weaning Protocol developed
2001 - First Annual Hans E. Einstein, MD, lecture

2002 - 2011

- 2007** - **NEW LOCATION** Barlow Van Nuys Satellite Unit at Valley Presbyterian Hospital opens to serve San Fernando Valley
2007 - "Post-ICU Mechanical Ventilation at Long-Term Care Hospitals: A Multicenter Outcomes Study" published

2012 - 2022

- 2016** - Designated only Passy-Muir Speaking Valve Center of Excellence in the Western United States
2016 - First hospital in California to achieve Gold Seal of Approval® for Disease Specific Certification for Respiratory Failure by The Joint Commission
2018 - Master Plan to ReBuild Barlow announced
2018 - Recertified for Gold Seal of Approval® for Disease Specific Certification for Respiratory
2018 - Seismic retrofit begins

Seismic retrofit begins with "breaking down walls" ceremony in 2018

- 2020** - Construction of new radiology suite completed
2021 - Seismic retrofit concluded
2021 - Certified for Gold Seal of Approval® for Disease Specific Certification for Wound Care by The Joint Commission
2021 - "Post-COVID recovery: characteristics of chronically critically ill patients admitted to a long-term acute care hospital" — peer reviewed paper published
2021 - Construction of new pharmacy completed
2021 - Construction of new on-site laboratory completed
2021 - Demolition begins to prepare for construction of new hospital
2022 - Guild House renovated and repurposed as administrative offices
2022 - Celebration of 120th Anniversary
2022 - Construction begins on new hospital building

2023 NEW HOSPITAL BUILDING OPENS

In 2022 Barlow Respiratory Hospital marks the milestone of a 120-year legacy of service.

In 1902 Dr. Walter Jarvis Barlow founded the premier sanatorium for the treatment of tuberculosis. Since that time, our focus has always been on care for patients with severe respiratory illness.

We have evolved to specialize in caring for critically ill, medically complex patients and in weaning patients from mechanical ventilation. We are the only not-for-profit respiratory hospital in California, we operate three locations: Los Angeles, Van Nuys and Whittier and serve nearly 1,000 patients annually with unsurpassed expertise and a national reputation for excellence.

In 2023, Barlow Respiratory Hospital expects to complete construction to open the doors of a new building, adjacent to the historic hospital building on Stadium Way in Los Angeles.

THE NEW HOSPITAL BUILDING WILL

- ❖ Compliment and modernize our historic 1927 hospital building
- ❖ Increase patient capacity
- ❖ Provide brand new, larger ICU
- ❖ Include new, modernized on-site pharmacy
- ❖ Add new rehabilitation and radiology suites
- ❖ Enhance space for patients and families
- ❖ Feature additional single rooms for privacy
- ❖ Provide larger patient rooms for comfort
- ❖ Welcome families and visitors in a new waiting area
- ❖ Include soothing meditation room for quiet reflection
- ❖ Ensure our clinical teams have access to appropriate space needed to serve patients with utmost expertise and highest levels of care
