Part III, Line 4 - Bad Debt Expense	Barlow Respiratory Hospital Notes to audited Financial Statements for the years ended August 31, 2018 and 2017 - page 8, Note 2Provision for doubtful accounts The Hospital provides for an allowance against patient accounts receivable for amounts that could become uncollectible whereby such receivables are reduced to their estimated net realizable value. The Hospital estimates this allowance based on the aging of their accounts receivable, historical collection experience by payer, and other relevant factors. There are various factors that can impact the collection trends, such as changes in the economy, which in turn have an impact on unemployment rates and the number of uninsured, and under-insured patients, the increased burden of co-payments to be made by patients with insurance, and business practices related to collection efforts. These factors continuously change and can have an impact on collection trends and the

complying with all federal and state laws and regulations

Hospitals estimation process The Hospitals policy is to attempt to collect amounts due from patients, including co-payments and deductibles due from patients with insurance, at the time of service while

Part III, Line 8 - Explanation Of Shortfall As Community Benefit	The Medicare Cost Report cost finding methodology was used to determine the cost of services to Medicare covered patients. Approximately 70 % of the Medicare patients that receive care at the hospital are dually eligible for both Medicare and Medi-Cal so they are low income seniors that meet Medi-Cal eligibility criteria and would be have Medi-Cal coverage as their primary coverage if they were less than 65 years of age

Part III. Line 9b - Provisions On Collection activity by the Hospital will cease when the patient is declared eligible for charity care and will be suspended during the period that the patient is attempting to qualify under the Hospitals Financial
